Name	Title	Phone
Brief description of Project Under this project the City of La Mirada proposes to improve habitat quality, promote stewardship of the landscape, and improve public open space in three parks. The City has four goals it wants to accomplish. First, the City would remove numerous sick and dying trees and replant with native California species. Second, the City would level the turf along the trail at Oak Creek Park, and re-vegetate the area. Third, is to rebuild the public amphitheater at Creek Park. Damaged by the elements, the amphitheater is a frequently used by groups such as the boy-scouts and needs to be replaced. Finally the City would install signs throughout the parks that would list the wildlife found there, helping visitors identify the flora and fauna native to this region.		
I certify that the information contained in this Project Application form and Application requirements is accurate.
